

Seeking Nominations for the 2025 Rising Leader Program

ACEC Ohio will be kicking off our sixth Rising Leader Program. This will be the class of 2025-2026 beginning in August of 2025.

Currently, ***we have 9 spots available***. If you know someone who would make a good candidate, please fill out the nomination form linked below and email it to **Lexi Francis**.

2025 Rising Leader Schedule

Rising Leader 2025 Nomination Form

In support of the ACEC Ohio mission to advance and protect member businesses, we are offering a RISING LEADERS training program to assist ACEC firms with the development of future leaders within their companies.

Engineering firm leaders most often arise from technical positions into management positions with very limited to no training in management; ACEC Ohio recognizes that there is a need for accessible, affordable training in management and business topics.

The RISING LEADER program is targeted at candidates with:

- **8-15 years of industry experience**
- **Interest in pursuing a leadership tract within their firms**
- **Regular direct client interaction and communication**
- **Recognized leadership attributes and/or potential**

The training program is a 6-half-day sessions covering 6 topics; 27.5 hours of learning.

Participation is limited to 20; first come first serve. You may only register one member from your firm. If spots are available, more than one may be submitted. A waiting list will be maintained.

ACEC Ohio will repeat the course for a new class of participants as often as necessary to fulfill member company needs.

\$2,500 per employee
